to open GI to EU
communities

Towards INSPIRE

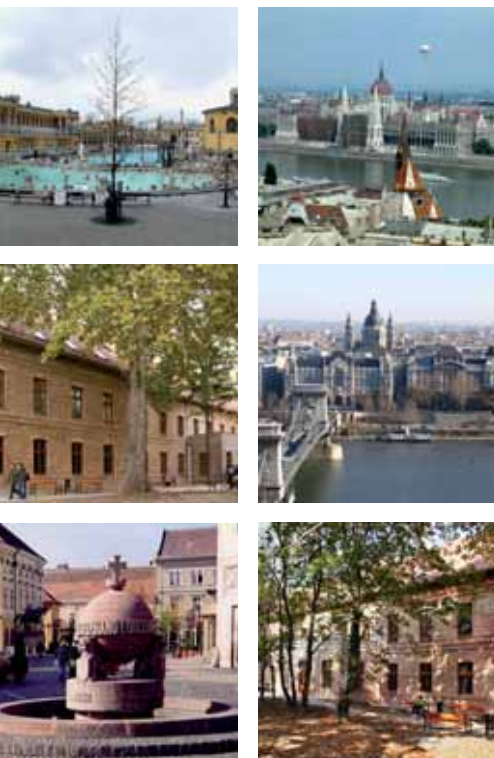

Workshop

Székesfehérvár

18-19 March 2009

University of West Hungary

Faculty of Geoinformatics

● Invitation and Call

Major focus of the workshop is to give to GIS researchers and technicians working on the same field the opportunity to meet and exchange experiences about international data model. The workshop is an opportunity to analyse the INSPIRE Directive, as a legislative framework for all European Member States, from the technical point of view and present the major results of some of recent EU projects on this fields.

GIS experts from academia, government, institutions and industry are welcomed to present their contributions in form of abstracts to be discussed in appropriate sessions for oral presentation at the workshop. Authors are invited to submit their abstracts electronically through the Workshop web site:

www.inspire.gis4eu.eu

Deadline for submitting abstracts : February 27, 2009

● Venue

Land and Geoinformation Knowledge Center
University of West Hungary Faculty of Geoinformatics
Budai út 43, Székesfehérvár H-8000, Hungary

● Organisers

CORILA - Consortium for Coordination of Research Activities concerning the Venice Lagoon System - www.corila.it

Faculty of Geoinformatics - University of West Hungary
<http://www.geo.info.hu/fttk/>

FOMI - The Institute of Geodesy, Cartography and Remote Sensing - www.fomi.hu

● Chairs

Prof. Márkus Béla
Dr. De Zorzi Stefania
MSc. Pál Lévai

● Contacts
